SUPERPROF

MULTI CLICK

ADJUSTABLE EXTENSION PIECE

The Multi Click extension for the Comfort Profiles contains an adjustable system that can be turned to any desired position. To be used in combination with a wooden or alumnium telescopic handle. Ideal for the finishing touch of ceilings.

Super Prof Multi Click is a universal click system that makes it easy to exchange various hand tools.

SUPERPROF

COMFORT PROFILE NEXT

The innovative Comfort Profile NEXT is an expansion of the Comfort Profile range.

The Comfort Profile NEXT is extremely suitable for super smooth finishing of walls and ceilings. The Next is equipped with a wide aluminum profile, which ensures better pressure distribution. The flexible and wider 0,3 stainless steel blade ensures a super smooth finish. Works quickly and with a minimal loss of plaster material. As a result, sanding afterwards is limited to a minimum.

The aluminum profile is anodized and therefore has a functional as well as a decorative function. The surface treatment provides a protective layer on the aluminum and a visually smoother finish.

Blade thicknesses: 0,3 mm

Sizes: 170 - 220 - 280 - 380 - 480 - 570 - 800 - 1000 - 1200 mm
