**TOOLS FOR  
PROFESSIONALS**

[www.superprof.nl](http://www.superprof.nl)

Super Prof Multi Click is a universal click system that allows easy exchange of various handled hand tools.

We offer professionals innovative and ergonomic hand tools of good quality. This makes a positive contribution to real craftsmanship, work comfort and productivity.

Extending tools by means of extension handles and extensions promotes the ergonomic work of professionals on a floor or a wall and ceiling.

The Super Prof Multi Click concept consists of an adjustable extension piece suitable for all spack and plaster knives and wall/floor scraper blades, an adjustable extension piece for all Comfort Profiles, an aluminium scouring pad red, a sander, an aluminium screed, a wooden ash handle and aluminium telescopic handles.

A number of Multi Click tools are also available complete with handle.

## AIR BLEEDING SPIKED ROLLERS

- 2 sizes available: 25 cm and 50 cm
- Double side handle and splash cap
  - Spike length: 31 mm

### THE USE OF AIR BLEEDING SPIKED ROLLERS

- Used for floor leveling mortars.
- Improve transition when using multiple charges.
- Activates the total flowability of the leveling mortars.
- Better and more flatter result, if used within the processing time.

## EXTENSION HANDLES

**wooden ash handle & aluminium telescopic handles**

A Multi Click combination is only complete with an extension handle. In combination with the Multi Click adjustable extensions, this makes it possible to extend the finishers spatulas, plastering spatulas, Comfort Profiles and wall/floor scrapers. The Multi Click scouring pads, screeds and air bleeding spiked rollers can be directly extended without an extension with an extension handle.

The Multi Click extension handles are available in 2 different versions; a wooden ash handle or an aluminium telescopic handle. The telescopic handle is adjustable in length and available in 2 sizes.

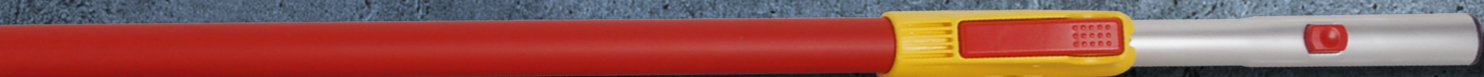

### WOODEN ASH HANDLE

Lengths: 150 cm & 170 cm

### ALUMINUM TELESCOPIC HANDLE - ADJUSTABLE

Lengths: 90-150 cm & 170-300cm

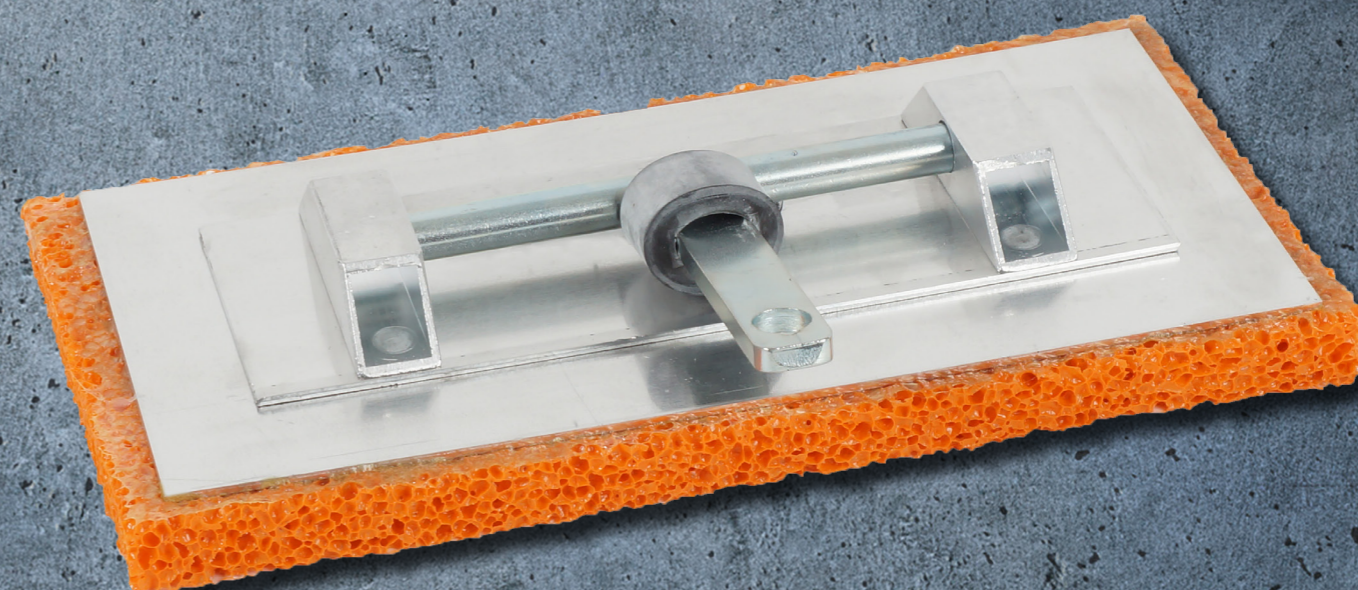

## ALUMINIUM SCOURING PADS

**with coarse structure**

The Super Prof Multi Click scouring pad with aluminium bret is ideal for sanding/filing plaster. Also suitable for applying a coarse sanding effect in sanding plaster.

Available in 2 different sizes:

- Length: 29cm x Width: 14 cm
- Length: 41.5 cm x Width: 21.5 cm

**SUPERPROF**

## ADJUSTABLE EXTENSION

**for finishing and plastering spatulas and scraper blades**

The new version of the Multi Click extension contains an adjustable system that can be turned into any desired position by means of a knob. It is suitable for all Super Prof finishing and plastering spatulas and wall/floor scraper blades. Can be used in combination with the wooden ash handle or aluminium telescopic handle. Ideal for finishing ceilings and high walls.

WITH FINISHING SPATULA

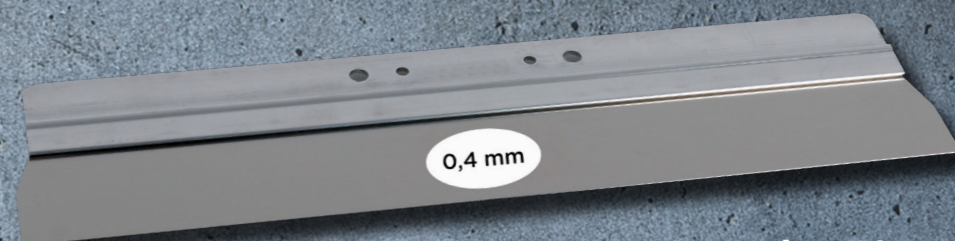

WITH SCRAPER BLADE

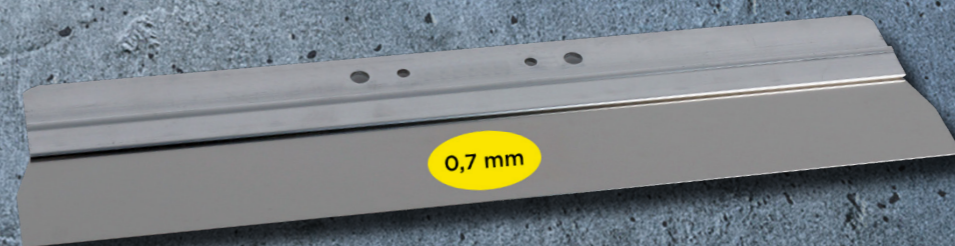

## SCRAPER BLADES

**blade thickness: 0.4 - 0.7 mm**

The Super Prof Multi Click wall/floor scraper blades are suitable for scraping and cleaning floors and/or walls. Can be used in combination with the Multi Click extension and wooden ash handle or aluminium telescopic handle.

Lengths: 38 cm

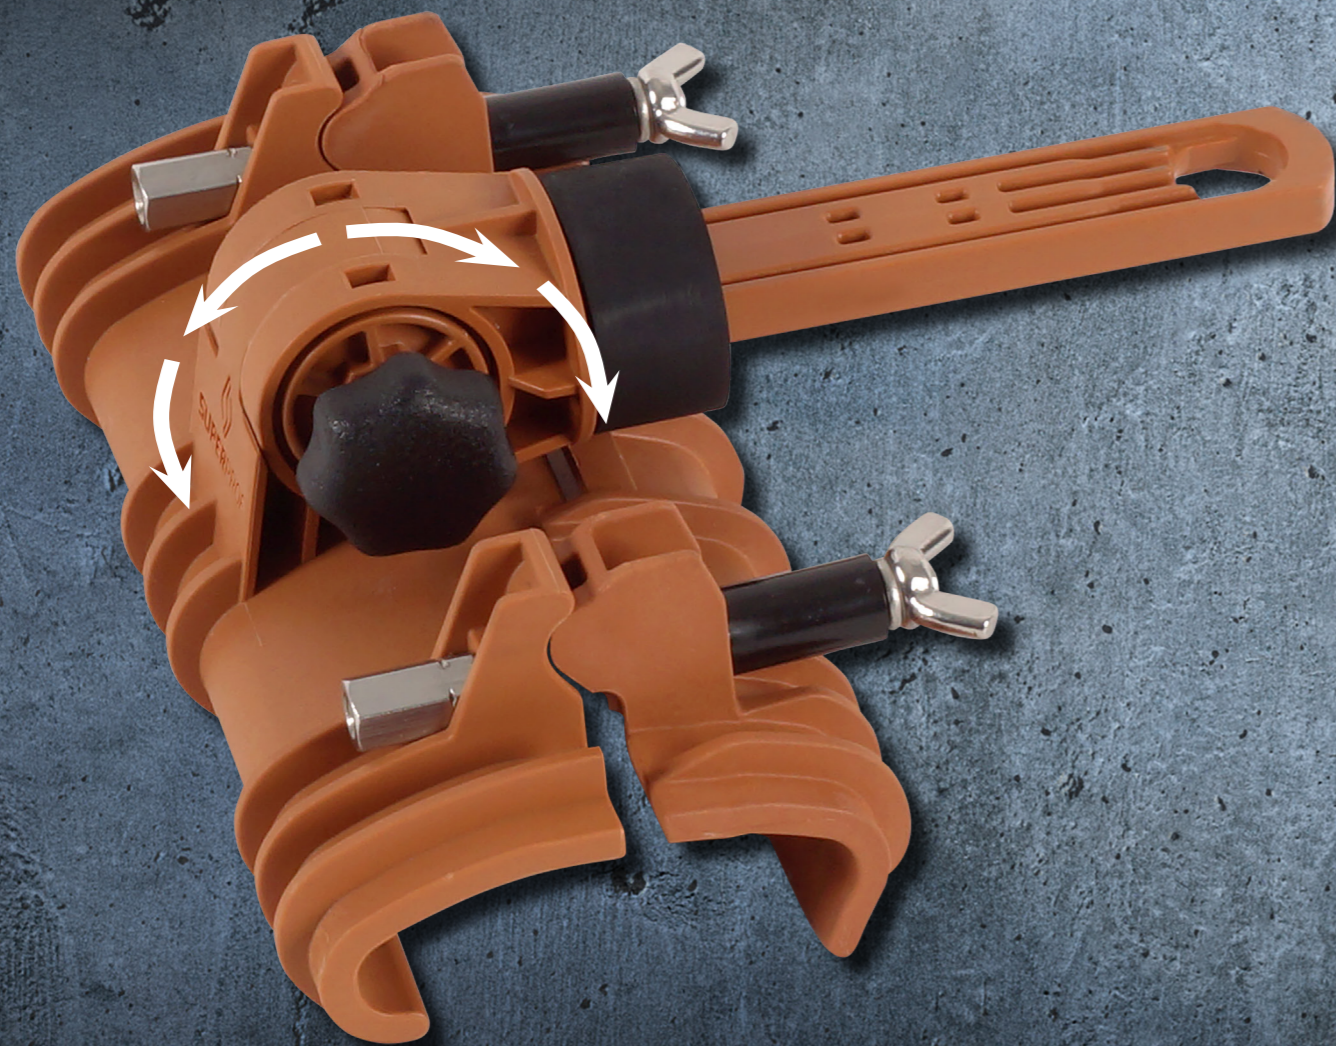

Lengths: 38 cm & 57 cm

## ADJUSTABLE EXTENSION

for Comfort Profiles

The Multi Click extension for the Comfort Profiles also contains an adjustable system that can be turned into any desired position by means of a knob. Both the wooden ash handle and the aluminium telescopic handle can be attached.

## COMFORT PROFILES

blade thickness: 0.3 - 0.4 - 0.7 mm

The Comfort Profiles from Super Prof are equipped with an aluminium profile and stainless steel work blade. Ideal for super smooth finishing of (large) surfaces. Works quickly and minimal loss of plaster material. In addition, there is probably no need to sand later.

An extension of the Comfort Profile series is the innovative Comfort Profile Next. The wide aluminium profile of the Next ensures better pressure distribution. It also has a flexible and wider 0.3-mm stainless steel work blade.

Lengths: 17 - 22 - 28 - 38 - 48 - 57 - 80 - 100 - 120 cm

STAIN  
LESS

**MULTI  
CLICK**

## SCREEDS

The Super Prof Multi Click aluminium screeds are indispensable when it comes to ensuring screed floors are flat. For an optimally flat end result, the mortar of liquid sand cement is briefly set in motion by means of a screed.

Lengths: 60 - 100 - 150 - 200 cm  
Radius: 40 mm

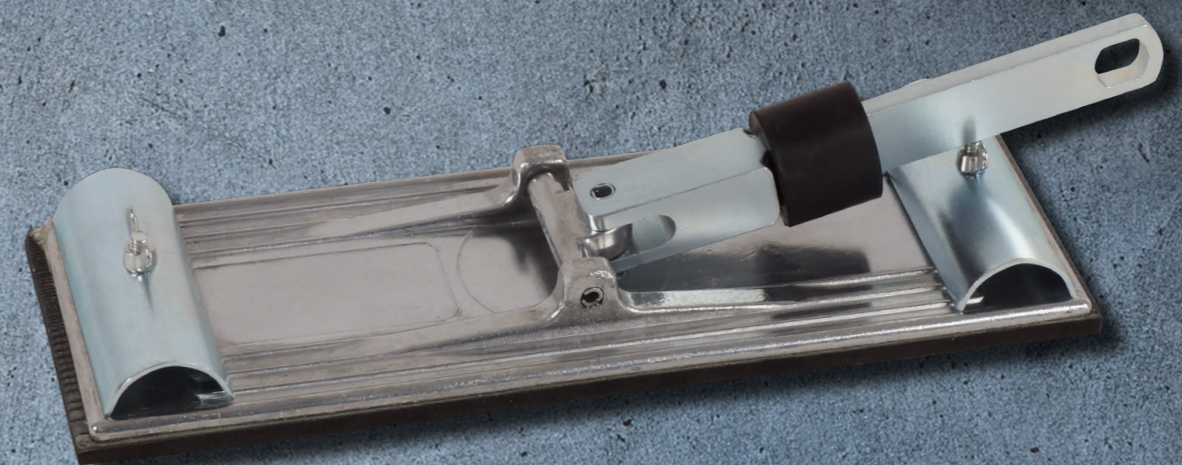

## ALUMINIUM SANDER

for sanding mesh

The Multi Click sander in combination with sanding mesh is used for easy sanding of irregularities on walls and ceilings.

The sanding mesh is available in 4 versions with different grain sizes; G100 - G180 - G220 - G240.  
The higher the number, the finer the grain.
